

The boys run away as fast as they can.

Amos also runs away as fast as he can, but in the **opposite direction**. He can hear the kiosk owner **shouting**. Then he hears a **police siren**. He passes a park and runs behind the **slide** to hide. He can feel his **heart beating fast** and his hands are **sweating**. The police van passes the park. The police are not after him*. He **calms down**. To be sure, he waits a few more minutes and then runs home.
