

This is my classroom. We go to school from March to December. School starts at 7.30 a.m. and finishes at 1.30 p.m. so we study for 30 hours per week. We study Quechua and Spanish. In my classroom the children are different ages but we only have one teacher.

I get up really early in the morning to go to school. It takes about one hour to walk to school. When I see the rivers I'm afraid because I think of a story about two children, an old lady and a vicuña. Pedro told me this story! ■
